

b) Labeling said determined groups by analyzing their content.

18. A method according to claim 17, wherein said analyzing is carried out by detecting keywords frequently used in a determined group.

19. A system for searching of Web sites in the Internet, comprising:

- a Spider application, for scanning the Web sites of the Internet;
- a Database application, for storing the information collected by said Spider application;
- an Indexing application, for grouping, and/or for labeling and/or for classifying the found Web sites; and
- a-Seeker application for searching of Web sites that sustain a search criteria by querying said Database according to said search criteria.

20. A system according to claim 19, further comprising a visual formulating application, for visually formulating each of said Web sites according to said classification and displaying the same to a user.

REMARKS

The above preliminary amendment is made to correct numerical claim sequence.

Applicant notes that number '12' was omitted in the original numerical claim sequence.

Applicants respectfully request that the preliminary amendment described herein be entered into the record prior to calculation of the filing fee and prior to examination and consideration of the above-identified application.

If a telephone conference would be helpful in resolving any issues concerning this communication, please contact Applicants' primary attorney-of-record, Gregory A. Sebald (Reg. No. 33,280), at (612) 336.4728.

Respectfully submitted,

MERCHANT & GOULD P.C.
